Abbas, P. J. *See* Campbell & Abbas, Dec. 1987, 494-502.

Alfonso, P. J. *See* Watson & Alfonso, Dec. 1987, 434-447.

Alipour-Haghighi, F., Titze, I. R., & Durham, P. Twitch response in the canine vocalis muscle. Dec. 1987, 290-294.

Antoñanzas-Barroso, N. *See* Javkin et al., March 1987, 122-129.

Beauchaine, K. A. *See* Gorga et al., March 1987, 130-136.

Beauchaine, K. A. *See* Gorga et al., Sept. 1987, 311-318.

Beukelman, D. R. *See* McClean et al., June 1987, 276-282.

Blair, C., & Muller, E. Functional identification of the perioral neuromuscular system: A signal flow diagram. March 1987, 60-70.

Block, M. G. *See* Riedel et al., June 1987, 207-214.

Block, M. G. *See* Wiley et al., June 1987, 161-170.

Boney, S. *See* Humes et al., Sept. 1987, 403-410.

Boothroyd, A. *See* Rubinstein & Boothroyd, June 1987, 153-160.

Brandt, F. D. *See* Revoile et al., March 1987, 3-12.

Brooks, P. L., Frost, B. J., Mason, J. L., & Gibson, D. M. Word and feature identification by profoundly deaf teenagers using the Queen's University Tactile Vocoder. March 1987, 137-141.

Brookshire, R. H. *See* Ernest-Baron et al., March 1987, 44-49.

Brown, C. *See* Zimmerman et al., Dec. 1987, 564-569.

Burns, E. M. *See* Penner & Burns, Sept. 1987, 396-403.

Burton, E. K. *See* Caruso & Burton, March 1987, 80-87.

Campbell, K. C. M., & Abbas, P. J. The effect of stimulus repetition rate on the auditory brainstem response in tumor and nontumor patients. Dec. 1987, 494-502.

Caruso, A. J., & Burton, E. K. Temporal acoustic measures of dysarthria associated with amyotrophic lateral sclerosis. March 1987, 80-87.

Clark, C. J. *See* Hardcastle et al., June 1987, 171-184.

Cole, D. *See* Hoover et al., Sept. 1987, 425-431.

Connell, P. J. An effect of modeling and imitation teaching procedures on children with and without specific language impairment. March 1987, 105-113.

Connor, N. P. *See* Ludlow & Connor, June 1987, 197-206.

Curtiss, S. *See* Kempler et al., Sept. 1987, 343-350.

Dalston, R. M. *See* Zimmerman et al., Dec. 1987, 564-569.

Dell, C. *See* Rastatter & Dell, Sept. 1987, 306-310.

Dell, C. W. *See* Rastatter & Dell, March 1987, 21-27.

Dent, L. J., Simmons, F. B., White, R. L., & Roberts, L. A. Speech perception by four single-channel cochlear implant users. Dec. 1987, 480-493.

Dinnsen, D. A. *See* Gierut et al., Dec. 1987, 462-479.

Durham, P. *See* Alipour-Haghighi et al., Dec. 1987, 290-294.

Elbert, M. *See* Gierut et al., Dec. 1987, 462-479.

Ernest-Baron, C. R., Brookshire, R. H., & Nicholas, L. E. Story structure and retelling of narratives by aphasic and non-brain-damaged adults. March 1987, 44-49.

Ferrand, C. T. *See* Gilbert & Ferrand, June 1987, 268-275.

Folkins, J. *See* Tye-Murray et al., Sept. 1987, 411-417.

Folkins, J. W. *See* Zimmerman et al., Dec. 1987, 564-569.

Freyman, R. L., & Nelson, D. A. Frequency discrimination of short- versus long-duration tones by normal and hearing-impaired listeners. March 1987, 28-36.

Frost, B. J. *See* Brooks et al., March 1987, 137-141.

Fugleberg, R. A. *See* Wilson & Fugleberg, Sept. 1987, 330-334.

Gibson, D. M. *See* Brooks et al., March 1987, 137-141.

Gierut, J. A., Elbert, M., & Dinnsen, D. A. A functional analysis of phonological knowledge and generalization learning in misarticulating children. Dec. 1987, 462-479.

Gilbert, H. R., & Ferrand, C. T. A respirometric technique to evaluate velopharyngeal function in speakers with cleft palate, with and without prostheses. June 1987, 268-275.

Gorga, M. P., Beauchaine, K. A., & Reiland, J. K. Comparison of onset and steady-state responses of hearing aids: Implications for use of the auditory brainstem response in the selection of hearing aids. March 1987, 130-136.

Gorga, M. P., Reiland, J. K., Beauchaine, K. A., Worthington, D. W. & Jesteadt, W. Auditory brainstem responses from graduates of an intensive care nursery: Normal patterns of response. Sept. 1987, 311-318.

Grant, K. W. Frequency modulation detection by normally hearing and profoundly hearing-impaired listeners. Dec. 1987, 558-563.

Greenlee, M. *See* Vihman & Greenlee, Dec. 1987, 503-521.

Hardcastle, W. J., Morgan Barry, R. A., & Clark, C. J. An instrumental phonetic study of lingual activity in articulation-disordered children. June 1987, 171-184.

Hawkins, D. B., Prosek, R. A., Walden, B. E., & Montgomery, A. A. Binaural loudness summation in the hearing impaired. March 1987, 37-43.

Hawkins, D. B. *See* Prosek et al., Sept. 1987, 301-305.

Hillenbrand, J. A methodological study of perturbation and additive noise in synthetically generated voice signals. Dec. 1987, 448-461.

Hixon, T. J. *See* Hoit & Hixon, Sept. 1987, 351-366.

Hoit, J. D., & Hixon, T. J. Age and speech breathing. Sept. 1987, 351-366.

Holden-Pitt, L. D. *See* Revoile et al., March 1987, 3-12.

Hoover, J. M., Reichle, J., Van Tasell, D., & Cole, D. The intelligibility of synthesized speech: ECHO II versus VOTRAX. Sept. 1987, 425-431.

Horii, Y. *See* Titze et al., June 1987, 252-260.

Humes, L. E., Boney, S., & Loven, F. Further validation of the speech transmission index (STI). Sept. 1987, 403-410.

Jackson, C. *See* Kempler et al., Sept. 1987, 343-350.

Javkin, H. R., Antoñanzas-Barroso, N., & Maddieson, I. Digital inverse filtering for linguistic research. March 1987, 122-129.

Jesteadt, W. *See* Gorga et al., Sept. 1987, 311-318.

Keller, E. Factors underlying tongue articulation in speech. June 1987, 223-229.

Kempler, D., Curtiss, S., & Jackson, C. Syntactic preservation in alzheimer's disease. Sept. 1987, 343-350.

Kempster, G. B. *See* Larson et al., Dec. 1987, 552-558.

Kimelman, M. D. Z., & McNeil, M. R. An investigation of emphatic stress comprehension in adult aphasia: A replication. Sept. 1987, 295-300.

Kistler, M. K. *See* Larson et al., Dec. 1987, 552-558.

Larson, C. R., Kempster, G. B., & Kistler, M. K. Changes in voice fundamental frequency following discharge of single motor units in cricothyroid and thyroarytenoid muscles. Dec. 1987, 552-558.

Lawson-Brill, C. *See* Rastatter & Lawson-Brill, June 1987, 261-267.

Liles, B. Z. Episode organization and cohesive conjunctives in narratives of children with and without language disorder. June 1987, 185-196.

Liles, B. Z. *See* Merritt & Liles, Dec. 1987, 539-552.

Linville, R. N. *See* Zimmerman et al., Dec. 1987, 564-569.

Loven, F. *See* Humes et al., Sept. 1987, 403-410.

Ludlow, C. L., & Connor, N. P. Dynamic aspects of phonatory control in spasmodic dysphonia. June 1987, 197-206.

Maddieson, I. *See* Javkin et al., March 1987, 122-129.

Mason, J. L. *See* Brooks et al., March 1987, 137-141.

McCauley, R. J., & Skenes, L. L. Contrastive stress, phonetic context, and misarticulation of /r/ in young speakers. March 1987, 114-121.

McClean, M. D., Beukelman, D. R., & Yorkston, K. M. Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. June 1987, 276-282.

McClean, M. D. Surface EMG recording of the perioral reflexes: Preliminary observations on stutterers and nonstutterers. June 1987, 283-287.

McCready, V. *See* Roberts & McCready, Sept. 1987, 335-342.

McNeil, M. R. *See* Kimelman & McNeil, Sept. 1987, 295-300.

Mentis, M., & Prutting, C. A. Cohesion in the discourse of normal and head-injured adults. March 1987, 88-98.

Merritt, D. D., & Liles, B. Z. Story grammar ability in normal and language-disordered children: Story generation, story retelling, and story comprehension. Dec. 1987, 539-552.

Milenkovic, P. Least mean square measures of voice perturbation. Dec. 1987, 529-538.

Montgomery, A. A. *See* Hawkins et al., March 1987, 37-43.

SUBJECT INDEX

HEARING

NATURE OF HEARING AND ITS DISORDERS

Normal Auditory Systems

Acoustic-immittance measures in normal ears. Wiley, T. L., Oviatt, D. L., & Block, M. G. June 1987, 161-170.
Auditory brainstem responses from graduates of an intensive care nursery: Normal patterns of response. Gorga, M. P., Reiland, J. K., Beauchaine, K. A., Worthington, D. W., & Jesteadt, W. Sept. 1987, 311-318.
Frequency discrimination of short- versus long-duration tones by normal and hearing-impaired listeners. Freyman, R. L., & Nelson, D. A. March 1987, 28-36.
Frequency modulation detection by normally hearing and profoundly hearing-impaired listeners. Grant, K. W. Dec. 1987, 558-563.
Further validation of the speech transmission index (STI). Humes, L. E., Boney, S., & Lovin, F. Sept. 1987, 403-410.
Influence of signal duration on the masking-level difference. Wilson, R. H., & Fugleberg, R. A. Sept. 1987, 330-334.
A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.

Auditory and Other Otic Pathologies

The dissociation of SOAEs and tinnitus. Penner, M. J., & Burns, E. M. Sept. 1987, 396-403.
The effect of stimulus repetition rate on the auditory brainstem response in tumor and nontumor patients. Campbell, K. C. M., & Abbas, P. J. Dec. 1987, 494-502.
Masking of tinnitus and central masking. Penner, M. J. June 1987, 147-152.
A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.

Hearing Loss and Deafness

Binaural loudness summation in the hearing impaired. Hawkins, D. B., Prosek, R. A., Walden, B. E., & Montgomery, A. A. March 1987, 37-43.
Burst and transition cues to voicing perception for spoken initial stops by impaired- and normal-hearing listeners. Revoile, S., Pickett, J. M., Holden-Pitt, L. D., Talkin, D., & Brandt, F. D. March 1987, 3-12.
The dissociation of SOAEs and tinnitus. Penner, M. J., & Burns, E. M. Sept. 1987, 396-403.
Effects of consonantal context on vowel lipreading. Montgomery, A. A., Walden, B. E., & Prosek, R. A. March 1987, 50-59.
Frequency discrimination of short- versus long-duration tones by normal and hearing-impaired listeners. Freyman, R. L., & Nelson, D. A. March 1987, 28-36.
Frequency modulation detection by normally hearing and profoundly hearing-impaired listeners. Grant, K. W. Dec. 1987, 558-563.
Masking of tinnitus and central masking. Penner, M. J. June 1987, 147-152.
A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.
Movement timing in deaf and hearing speakers: Comparison of phonetically heterogeneous syllable strings. Tye-Murray, N., Zimmermann, G. N., & Folkins, J. Sept. 1987, 411-417.
Speech perception by four single-channel cochlear implant users. Dent, L. J., Simmons, F. B., White, R. L., & Roberts, L. A. Dec. 1987, 480-493.

Speech recognition threshold in noise: Effects of hearing loss, frequency response, and speech materials. Van Tasell, D. J., & Yanz, J. L. Sept. 1987, 377-386.
Training effects on vowel production by two profoundly hearing-impaired speakers. Osberger, M. J. June 1987, 241-251.

ASSESSMENT OF HEARING

Psychoacoustics

The dissociation of SOAEs and tinnitus. Penner, M. J., & Burns, E. M. Sept. 1987, 396-403.
Frequency discrimination of short- versus long-duration tones by normal and hearing-impaired listeners. Freyman, R. L., & Nelson, D. A. March 1987, 28-36.
Frequency modulation detection by normally hearing and profoundly hearing-impaired listeners. Grant, K. W. Dec. 1987, 558-563.
Influence of signal duration on the masking-level difference. Wilson, R. H., & Fugleberg, R. A. Sept. 1987, 330-334.
Masking of tinnitus and central masking. Penner, M. J. June 1987, 147-152.
A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.

Acoustical Instruments, Measurements, and Standards

Further validation of the speech transmission index (STI). Humes, L. E., Boney, S., & Loven, F. Sept. 1987, 403-410.

Diagnostic Audiology–General

A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.

Specific Diagnostic Techniques and Approaches

ACOUSTIC IMMITTANCE

Acoustic-immittance measures in normal ears. Wiley, T. L., Oviatt, D. L., & Block, M. G. June 1987, 161-170.
Tympanometric measures of eustachian-tube function. Riedel, C. L., Wiley, T. L., & Block, M. G. June 1987, 207-214.

BEHAVIORAL

A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.

ELECTROPHYSIOLOGIC

Auditory brainstem responses from graduates of an intensive care nursery: Normal patterns of response. Gorga, M. P., Reiland, J. K., Beauchaine, K. A., Worthington, D. W., Jesteadt, W. Sept. 1987, 311-318.
Comparison of onset and steady-state responses of hearing aids: Implications for use of the auditory brainstem response in the selection of hearing aids. Gorga, M. P., Beauchaine, K. A., & Reiland, J. K. March 1987, 130-136.
The effect of stimulus repetition rate on the auditory brainstem response in tumor and nontumor patients. Campbell, K. C. M., & Abbas, P. J. Dec. 1987, 494-502.

SPEECH

Burst and transition cues to voicing perception for spoken initial stops by impaired- and normal-hearing listeners. Revoile, S., Pickett, J. M., Holden-Pitt, L. D., Talkin, D., & Brandt, F. D. March 1987, 3-12.

INTERVENTION

Habilitation, Rehabilitation, and Education

Burst and transition cues to voicing perception for spoken initial stops by impaired- and normal-hearing listeners. Revoile, S., Pickett, J. M., Holden-Pitt, L. D., Talkin, D., & Brandt, F. D. March 1987, 3-12.
Effect of two approaches to auditory training on speech recognition by hearing-impaired adults. Rubinstein, A., & Boothroyd, A. June 1987, 153-160.
Effects of consonantal context on vowel lipreading. Montgomery, A. A., Walden, B. E., & Prosek, R. A. March 1987, 50-59.
Effects of vowel context on the articulatory closure postures of the deaf. Tye-Murray, N. March 1987, 99-104.
Training effects on vowel production by two profoundly hearing-impaired speakers. Osberger, M. J. June 1987, 241-251.
Word and feature identification by profoundly deaf teenagers using the Queen's University Tactile Vocoder. Brooks, P. L., Frost, B. J., Mason, J. L., & Gibson, D. M. March 1987, 137-141.

Hearing Aids and Other Prostheses

Binaural loudness summation in the hearing impaired. Hawkins, D. B., Prosek, R. A., Walden, B. E., & Montgomery, A. A. March 1987, 37-43.
Comparison of onset and steady-state responses of hearing aids: Implications for use of the auditory brainstem response in the selection of hearing aids. Gorga, M. P., Beauchaine, K. A., & Reiland, J. K. March 1987, 130-136.
Speech perception by four single-channel cochlear implant users. Dent, L. J., Simmons, F. B., White, R. L., & Roberts, L. A. Dec. 1987, 480-493.
Speech recognition threshold in noise: Effects of hearing loss, frequency response, and speech materials. Van Tasell, D. J., & Yanz, J. L. Sept. 1987, 377-386.
Word and feature identification by profoundly deaf teenagers using the Queen's University Tactile Vocoder. Brooks, P. L., Frost, B. J., Mason, J. L., & Gibson, D. M. March 1987, 137-141.

SPEECH READING (LIP READING)

Perception of synthetic visual consonant-vowel articulations. Walden, B. E., Montgomery, A. A., & Prosek, R. A. Sept. 1987, 418-424.

BINAURAL HEARING

Binaural loudness summation in the hearing impaired. Hawkins, D. B., Prosek, R. A., Walden, B. E., & Montgomery, A. A. March 1987, 37-43.

LANGUAGE

NATURE OF NORMAL LANGUAGE

Language Development

An effect of modeling and imitation teaching procedures on children with and without specific language impairment. Connell, P. J. March 1987, 105-113.
Individual differences in phonological development: Ages one and three years. Vihman, M. M., & Greenlee, M. Dec. 1987, 503-521.
The role of coarticulatory effects in the perception of fricatives by children and adults. Nittrouer, S., & Studdert-Kennedy, M. Sept. 1987, 319-329.
Verbal and perceptual analogical reasoning and proportional metaphor comprehension in young children. Nippold, M. A., & Sullivan, M. P. Sept. 1987, 367-376.

Language Use in Adults

Syntactic preservation in alzheimer's disease. Kempler, D., Curtiss, S., & Jackson, C. Sept. 1987, 343-350.

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders

Cohesion in the discourse of normal and head-injured adults. Mentis, M., & Prutting, C. A. March 1987, 88-98.
An investigation of emphatic stress comprehension in adult aphasia: A replication. Kimelman, M. D. Z., & McNeil, M. R. Sept. 1987, 295-300.
Story structure and retelling of narratives by aphasic and non-brain-damaged adults. Ernest-Baron, C. R., Brookshire, R. H., & Nicholas, L. E. March 1987, 44-49.
Syntactic preservation in alzheimer's disease. Kempler, D., Curtiss, S., & Jackson, C. Sept. 1987, 343-350.

Language Disorders in Children

An effect of modeling and imitation teaching procedures on children with and without specific language impairment. Connell, P. J. March 1987, 105-113.
Episode organization and cohesive conjunctives in narratives of children with and without language disorder. Liles, B. Z. June 1987, 185-196.
Story grammar ability in normal and language-disordered children: Story generation, story retelling, and story comprehension. Merritt, D. D., & Liles, B. Z. Dec. 1987, 539-552.

Language Disorders in Personality and Psychiatric Disturbances

Syntactic preservation in alzheimer's disease. Kempler, D., Curtiss, S., & Jackson, C. Sept. 1987, 343-350.

ASSESSMENT AND INTERVENTION

Intervention

An effect of modeling and imitation teaching procedures on children with and without specific language impairment. Connell, P. J. March 1987, 105-113.

SPEECH

NATURE OF NORMAL SPEECH

Development of Speech and Voice

Contrastive stress, phonetic context, and misarticulation of /r/ in young speakers. McCauley, R. J., & Skenes, L. L. March 1987, 114-121.
Effects of vowel context on the articulatory closure postures of the deaf. Tye-Murray, N. March 1987, 99-104.
The role of coarticulatory effects in the perception of fricatives by children and adults. Nittrouer, S., & Studdert-Kennedy, M. Sept. 1987, 319-329.

Anatomy and Physiology of the Adult Speech System

Age and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1987, 351-366.
Changes in voice fundamental frequency following discharge of single motor units in cricothyroid and thyroarytenoid muscles. Larson, C. R., Kempster, G. B., & Kistler, M. K. Dec. 1987, 552-558.
Functional identification of the perioral neuromuscular system: A signal flow diagram. Blair, C., & Muller, E. March 1987, 60-70.
Reflex responses in human jaw, lip, and tongue muscles elicited by mechanical stimulation. Weber, C. M., & Smith, A. March 1987, 70-79.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.
Surface EMG recording of the perioral reflexes: Preliminary observations on stutterers and nonstutterers. McClean, M. D. June 1987, 283-287.

Perception of Speech

Effect of formant transition rate on the differentiation of synthesized child and adult /w/ and /r/ sounds. Ohde, R. N., & Sharf, D. J. June 1987, 215-222.
Effects of consonantal context on vowel lipreading. Montgomery, A. A., Walden, B. E., & Prosek, R. A. March 1987, 50-59.
The intelligibility of synthesized speech: ECHO II versus VOTRAX. Hoover, J. M., Reichle, J., Van Tasell, D., & Cole, D. Sept. 1987, 425-431.
Reaction times of aging subjects to monaural verbal stimuli: Some evidence for a reduction in right-hemisphere linguistic processing capacity. Rastatter, M., & Lawson-Brill, C. June 1987, 261-267.

Perception of synthetic visual consonant-vowel articulations. Walden, B. E., Montgomery, A. A., & Prosek, R. A. Sept. 1987, 418-424.
The role of coarticulatory effects in the perception of fricatives by children and adults. Nittrouer, S., & Studdert-Kennedy, M. Sept. 1987, 319-329.

SPEECH AND VOICE DISORDERS

Articulation and Resonance Disorders

Comparison of cineradiographic and photodetection techniques for assessing velopharyngeal function during speech Zimmerman, G., Dalston, R. M., Brown, C., Folkins, J. W., Linville, R. N., & Seaver, E. J. Dec. 1987, 564-569.
A functional analysis of phonological knowledge and generalization learning in misarticulating children. Gierut, J. A., Elbert, M., & Dinnsen, D. A. Dec. 1987, 462-479.
An instrumental phonetic study of lingual activity in articulation-disordered children. Hardcastle, W. J., Morgan Barry, R. A., & Clark, C. J. June 1987, 171-184.
Movement timing in deaf and hearing speakers: Comparison of phonetically heterogeneous syllable strings. Tye-Murray, N., Zimmermann, G. N., & Folkins, J. Sept. 1987, 411-417.
A respirometric technique to evaluate velopharyngeal function in speakers with cleft palate, with and without prostheses. Gilbert, H. R., & Ferrand, C. T. June 1987, 268-275.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.

Craniofacial and Other Anomalies

A respirometric technique to evaluate velopharyngeal function in speakers with cleft palate, with and without prostheses. Gilbert, H. R., & Ferrand, C. T. June 1987, 268-275.

Physiologically Based Speech Disorders

Aerodynamic and myoelastic contributions to tracheoesophageal voice production. Moon, J. B., & Weinberg, B. Sept. 1987, 387-395.
Dynamic aspects of phonatory control in spasmodic dysphonia. Ludlow, C. L., & Connor, N. P. June 1987, 197-206.
Effects of vowel context on the articulatory closure postures of the deaf. Tye-Murray, N. March 1987, 99-104.
An instrumental phonetic study of lingual activity in articulation-disordered children. Hardcastle, W. J., Morgan Barry, R. A., & Clark, C. J. June 1987, 171-184.
Movement timing in deaf and hearing speakers: Comparison of phonetically heterogeneous syllable strings. Tye-Murray, N., Zimmermann, G. N., & Folkins, J. Sept. 1987, 411-417.
Physiological bases of acoustic LRT in nonstutterers, mild stutterers, and severe stutterers. Watson, B. C., & Alfonso, P. J. Dec. 1987, 434-447.
A respirometric technique to evaluate velopharyngeal function in speakers with cleft palate, with and without prostheses. Gilbert, H. R., & Ferrand, C. T. June 1987, 268-275.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.
Surface EMG recording of the perioral reflexes: Preliminary observations on stutterers and nonstutterers. McClean, M. D. June 1987, 283-287.
Temporal acoustic measures of dysarthria associated with amyotrophic lateral sclerosis. Caruso, A. J., & Burton, E. K. March 1987, 80-87.

Stuttering and Other Fluency Disturbances

Formant frequencies of stuttered and fluent vowels. Prosek, R. A., Montgomery, A. A., Walden, B. E., & Hawkins, D. B. Sept. 1987, 301-305.
Physiological bases of acoustic LRT in nonstutterers, mild stutterers, and severe stutterers. Watson, B. C., & Alfonso, P. J. Dec. 1987, 434-447.
Reaction times of moderate and severe stutterers to monaural verbal stimuli: Some implications for neurolinguistic organization. Rastatter, M. P., & Dell, C. W. March 1987, 21-27.
Surface EMG recording of the perioral reflexes: Preliminary observations on stutterers and nonstutterers. McClean, M. D. June 1987, 283-287.
Vocal reaction times of stuttering subjects to tachistoscopically presented concrete and abstract words: A closer look at cerebral dominance and language processing. Rastatter, M. P., & Dell, C. Sept. 1987, 306-310.

Voice and Other Laryngeal Disorders

Aerodynamic and myoelastic contributions to tracheoesophageal voice production. Moon, J. B., & Weinberg, B. Sept. 1987, 387-395.
Dynamic aspects of phonatory control in spasmodic dysphonia. Ludlow, C. L., & Connor, N. P. June 1987, 197-206.
Least mean square measures of voice perturbation. Milenkovic, P. Dec. 1987, 529-538.
Some technical considerations in voice perturbation measurements. Titze, I. R., Horii, Y., & Scherer, R. C. June 1987, 252-260.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.
Twitch response in the canine vocalis muscle. Alipour-Haghighi, F., Titze, I. R., & Durham, P. Dec. 1987, 290-294.

ASSESSMENT AND INTERVENTION

Assessment

A functional analysis of phonological knowledge and generalization learning in misarticulating children. Gierut, J. A., Elbert, M., & Dinnsen, D. A. Dec. 1987, 462-479.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.

Acoustic Measures of Speech and Voice

Digital inverse filtering for linguistic research. Javkin, H. R., Antoñanzas-Barroso, N., & Maddieson, I. March 1987, 122-129.
Dynamic aspects of phonatory control in spasmodic dysphonia. Ludlow, C. L., & Connor, N. P. June 1987, 197-206.
Least mean square measures of voice perturbation. Milenkovic, P. Dec. 1987, 529-538.
A methodological study of perturbation and additive noise in synthetically generated voice signals. Hillenbrand, J. Dec. 1987, 448-461.
Prediction of vocal severity within and across voice types. Wolfe, V. I., & Steinfatt, T. M. June 1987, 230-240.
Some technical considerations in voice perturbation measurements. Titze, I. R., Horii, Y., & Scherer, R. C. June 1987, 252-260.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.
Temporal characteristics of the speech of normal elderly adults. Smith, B. L., Wasowicz, J., & Preston, J. Dec. 1987, 522-529.
Twitch response in the canine vocalis muscle. Alipour-Haghighi, F., Titze, I. R., & Durham, P. Dec. 1987, 290-294.

Intervention

A functional analysis of phonological knowledge and generalization learning in misarticulating children. Gierut, J. A., Elbert, M., & Dinnsen, D. A. Dec. 1987, 462-479.

Instrumentation for Diagnosis, Treatment, and Research

Age and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1987, 351-366.
Comparison of cineradiographic and photodetection techniques for assessing velopharyngeal function during speech Zimmerman, G., Dalston, R. M., Brown, C., Folkins, J. W., Linville, R. N., & Seaver, E. J. Dec. 1987, 564-569.
Digital inverse filtering for linguistic research. Javkin, H. R., Antoñanzas-Barroso, N., & Maddieson, I. March 1987, 122-129.
Dynamic aspects of phonatory control in spasmodic dysphonia. Ludlow, C. L., & Connor, N. P. June 1987, 197-206.
An instrumental phonetic study of lingual activity in articulation-disordered children. Hardcastle, W. J., Morgan Barry, R. A., & Clark, C. J. June 1987, 171-184.
A methodological study of perturbation and additive noise in synthetically generated voice signals. Hillenbrand, J. Dec. 1987, 448-461.
A respirometric technique to evaluate velopharyngeal function in speakers with cleft palate, with and without prostheses. Gilbert, H. R., & Ferrand, C. T. June 1987, 268-275.
Some technical considerations in voice perturbation measurements. Titze, I. R., Horii, Y., & Scherer, R. C. June 1987, 252-260.
Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.

Nonspeech Communication Systems

The intelligibility of synthesized speech: ECHO II versus VOTRAX. Hoover, J. M., Reichle, J., Van Tasell, D., & Cole, D. Sept. 1987, 425-431.

NORMAL SPEECH MOTOR CONTROL

Factors underlying tongue articulation in speech. Keller, E. June 1987, 223-229.

HEMISPHERIC DOMINANCE AND REACTION TIME

Reaction times of aging subjects to monaural verbal stimuli: Some evidence for a reduction in right-hemisphere linguistic processing capacity. Rastatter, M., & Lawson-Brill, C. June 1987, 261-267.

CEREBRAL DOMINANCE IN STUTTERING

Vocal reaction times of stuttering subjects to tachistoscopically presented concrete and abstract words: A closer look at cerebral dominance and language processing. Rastatter, M. P., & Dell, C. Sept. 1987, 306-310.

AGING

Age and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1987, 351-366.

SPEECH RHYTHMICITY

Movement timing in deaf and hearing speakers: Comparison of phonetically heterogeneous syllable strings. Tye-Murray, N., Zimmermann, G. N., & Folkins, J. Sept. 1987, 411-417.

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

Research Issues and Methodology

Comparison of cineradiographic and photodetection techniques for assessing velopharyngeal function during speech Zimmerman, G., Dalston, R. M., Brown, C., Folkins, J. W., Linville, R. N., & Seaver, E. J. Dec. 1987, 564-569.
Digital inverse filtering for linguistic research. Javkin, H. R., Antoñanzas-Barroso, N., & Maddieson, I. March 1987, 122-129.

PROFESSIONAL TRAINING

Clinical Supervision and Interaction

Different clinical perspectives of good and poor therapy sessions. Roberts, J. E., & McCready, V. Sept. 1987, 335-342.

TITLE INDEX

Acoustic-immittance measures in normal ears. Wiley, T. L., Oviatt, D. L., & Block, M. G. June 1987, 161-170.

Aerodynamic and myoelastic contributions to tracheoesophageal voice production. Moon, J. B., & Weinberg, B. Sept. 1987, 387-395.

Age and speech breathing. Hoit, J. D., & Hixon, T. J. Sept. 1987, 351-366.

Auditory brainstem responses from graduates of an intensive care nursery: Normal patterns of response. Gorga, M. P., Reiland, J. K., Beauchaine, K. A., Worthington, D. W., & Jesteadt W. Sept. 1987, 311-318.

Binaural loudness summation in the hearing impaired. Hawkins, D. B., Prosek, R. A., Walden, B. E., & Montgomery, A. A. March 1987, 37-43.

Burst and transition cues to voicing perception for spoken initial stops by impaired- and normal-hearing listeners. Revoile, S., Pickett, J. M., Holden-Pitt, L. D., Talkin, D., & Brandt, F. D. March 1987, 3-12.

Changes in voice fundamental frequency following discharge of single motor units in cricothyroid and thyroarytenoid muscles. Larson, C. R., Kempster, G. B., & Kistler, M. K. Dec. 1987, 552-581.

Cohesion in the discourse of normal and head-injured adults. Mentis, M., & Prutting, C. A. March 1987, 88-98.

Comparison of cineradiographic and photodetection techniques for assessing velopharyngeal function during speech. Zimmermann, G., Dalston, R. M., Brown, C., Folkins, J. W., Linville, R. N. & Seaver, E. J. Dec. 1987, 564-569.

Comparison of onset and steady-state responses of hearing aids: Implications for use of the auditory brainstem response in the selection of hearing aids. Gorga, M. P., Beauchaine, K. A., & Reiland, J. K. March 1987, 130-136.

Contrastive stress, phonetic context, and misarticulation of /r/ in young speakers. McCauley, R. J., & Skenes, L. L. March 1987, 114-121.

Different clinical perspectives of good and poor therapy sessions. Roberts, J. E., & McCready, V. Sept. 1987, 335-342.

Digital inverse filtering for linguistic research. Javkin, H. R., Antoñanzas-Barroso, N., & Maddieson, I. March 1987, 122-129.

The dissociation of SOAEs and tinnitus. Penner, M. J., & Burns, E. M. Sept. 1987, 396-403.

Dynamic aspects of phonatory control in spasmodic dysphonia. Ludlow, C. L., & Connor, N. P. June 1987, 197-206.

Effect of formant transition rate on the differentiation of synthesized child and adult /w/ and /r/ sounds. Ohde, R. N., & Sharf, D. J. June 1987, 215-222.

An effect of modeling and imitation teaching procedures on children with and without specific language impairment. Connell, P. J. March 1987, 105-113.

The effect of stimulus repetition rate on the auditory brainstem response in tumor and nontumor patients. Campbell, K. C. M., & Abbas, P. J. Dec. 1987, 494-502.

Effect of two approaches to auditory training on speech recognition by hearing-impaired adults. Rubinstein, A., & Boothroyd, A. June 1987, 153-160.

Effects of consonantal context on vowel lipreading. Montgomery, A. A., Walden, B. E., & Prosek, R. A. March 1987, 50-59.

Effects of vowel context on the articulatory closure postures of the deaf. Tye-Murray, N. March 1987, 99-104.

Episode organization and cohesive conjunctives in narratives of children with and without language disorder. Liles, B. Z. June 1987, 185-196.

Factors underlying tongue articulation in speech. Keller, E. June 1987, 223-229.

Formant frequencies of stuttered and fluent vowels. Prosek, R. A., Montgomery, A. A., Walden, B. E., & Hawkins, D. B. Sept. 1987, 301-305.

Frequency discrimination of short- versus long-duration tones by normal and hearing-impaired listeners. Freyman, R. L., & Nelson, D. A. March 1987, 28-36.

Frequency modulation detection by normally hearing and profoundly hearing-impaired listeners. Grant, K. W. Dec. 1987, 558-563.

A functional analysis of phonological knowledge and generalization learning in misarticulating children. Gierut, J. A., Elbert, M., & Dinnsen, D. A. Dec. 1987, 462-479.

Functional identification of the perioral neuromuscular system: A signal flow diagram. Blair, C., & Muller, E. March 1987, 60-70.

Further validation of the speech transmission index (STI). Humes, L. E., Boney, S., & Loven, F. Sept. 1987, 403-410.

Individual differences in phonological development: Ages one and three years. Vihman, M. M., & Greenlee, M. Dec. 1987, 503-521.

Influence of signal duration on the masking-level difference. Wilson, R. H., & Fugleberg, R. A. Sept. 1987, 330-334.

An instrumental phonetic study of lingual activity in articulation-disordered children. Hardcastle, W. J., Morgan Barry, R. A., & Clark, C. J. June 1987, 171-184.

The intelligibility of synthesized speech: ECHO II versus VOTRAX. Hoover, J. M., Reichle, J., Van Tasell, D., & Cole, D. Sept. 1987, 425-431.

An investigation of emphatic stress comprehension in adult aphasia: A replication. Kimelman, M. D. Z., & McNeil, M. R. Sept. 1987, 295-300.

Least mean square measures of voice perturbation. Milenkovic, P. Dec. 1987, 529-538.

Masking of tinnitus and central masking. Penner, M. J. June 1987, 147-152.

A method for relating loudness-matching and intensity-discrimination data. Schlauch, R. S., & Wier, C. C. March 1987, 13-20.

A methodological study of perturbation and additive noise in synthetically generated voice signals. Hillenbrand, J. Dec. 1987, 448-461.

Movement timing in deaf and hearing speakers: Comparison of phonetically heterogeneous syllable strings. Tye-Murray, N., Zimmermann, G. N., & Folkins, J. Sept. 1987, 411-417.

Perception of synthetic visual consonant-vowel articulations. Walden, B. E., Montgomery, A. A., & Prosek, R. A. Sept. 1987, 418-424.

Physiological bases of acoustic LRT in nonstutterers, mild stutterers, and severe stutterers. Watson, B. C., & Alfonso, P. J. Dec. 1987, 434-447.

Prediction of vocal severity within and across voice types. Wolfe, V. I., & Steinfatt, T. M. June 1987, 230-240.

Reaction times of aging subjects to monaural verbal stimuli: Some evidence for a reduction in right-hemisphere linguistic processing capacity. Rastatter, M., & Lawson-Brill, C. June 1987, 261-267.

Reaction times of moderate and severe stutterers to monaural verbal stimuli: Some implications for neurolinguistic organization. Rastatter, M. P., & Dell, C. W. March 1987, 21-27.

Reflex responses in human jaw, lip, and tongue muscles elicited by mechanical stimulation. Weber, C. M., & Smith, A. March 1987, 70-79.

A respirometric technique to evaluate velopharyngeal function in speakers with cleft palate, with and without prostheses. Gilbert, H. R., & Ferrand, C. T. June 1987, 268-275.

The role of coarticulatory effects in the perception of fricatives by children and adults. Nittrouer, S., & Studdert-Kennedy, M. Sept. 1987, 319-329.

Some technical considerations in voice perturbation measurements. Titze, I. R., Horii, Y., & Scherer, R. C. June 1987, 252-260.

Speech perception by four single-channel cochlear implant users. Dent, L. J., Simmons, F. B., White, R. L., & Roberts, L. A. Dec. 1987, 480-493.

Speech recognition threshold in noise: Effects of hearing loss, frequency response, and speech materials. Van Tasell, D. J., & Yanz, J. L. Sept. 1987, 377-386.

Speech-muscle visuomotor tracking in dysarthric and nonimpaired speakers. McClean, M. D., Beukelman, D. R., & Yorkston, K. M. June 1987, 276-282.

Story grammar ability in normal and language-disordered children: Story generation, story retelling, and story comprehension. Merritt, D. D., & Liles, B. Z. Dec. 1987, 539-552.

Story structure and retelling of narratives by aphasic and non-brain-damaged adults. Ernest-Baron, C. R., Brookshire, R. H., & Nicholas, L. E. March 1987, 44-49.

Surface EMG recording of the perioral reflexes: Preliminary observations on stutterers and nonstutterers. McClean, M. D. June 1987, 283-287.

Syntactic preservation in alzheimer's disease. Kempler, D., Curtiss, S., & Jackson, C. Sept. 1987, 343-350.

Temporal acoustic measures of dysarthria associated with amyotrophic lateral sclerosis. Caruso, A. J., & Burton, E. K. March 1987, 80-87.

Temporal characteristics of the speech of normal elderly adults. Smith, B. L., Wasowicz, J., & Preston, J. Dec. 1987, 522-529.

Training effects on vowel production by two profoundly hearing-impaired speakers. Osberger, M. J. June 1987, 241-251.

Twitch response in the canine vocalis muscle. Alipour-Haghighi, F., Titze, I. R., & Durham, P. Dec. 1987, 290-294.

Tympanometric measures of eustachian-tube function. Riedel, C. L., Wiley, T. L., & Block, M. G. June 1987, 207-214.

Verbal and perceptual analogical reasoning and proportional metaphor comprehension in young children. Nippold, M. A., & Sullivan, M. P. Sept. 1987, 367-376.

Vocal reaction times of stuttering subjects to tachistoscopically presented concrete and abstract words: A closer look at cerebral dominance and language processing. Rastatter, M. P., & Dell, C. Sept. 1987, 306-310.

Word and feature identification by profoundly deaf teenagers using the Queen's University Tactile Vocoder. Brooks, P. L., Frost, B. J., Mason, J. L., & Gibson, D. M. March 1987, 137-141.
